JUNE T.A.S.C. REVIEW

Monday June 10th 2002: A meeting has been scheduled at the IEC offices from 1pm to 4pm for all people involved with the T.A.S.C. Pre-job safety analysis card. We are encouraging everyone to share with us their ideas on what worked, what didn't work and how we can improve this important safety tool. Invitations have been sent. Please call Peter at 337-1716 for further information.

T.A.S.C. UPDATE

New study results from Task Analysis Safety Cards have been tabulated from recent turnarounds. Some trends become visible when looking at these cards as a group. Highest hazard in this set of T.A.S.C. cards was a risk for slips, trips and falls. Number two was particle in eye, closely followed by cuts, sharp edges. We will analyze a set of cards for hazard tracking from your job-site for a nominal processing fee.

Positions and Actions of people at risk!

SAFETY PARTNERSHIP FORUM

Please mark Tuesday June 25th 2002 as the date for our annual Forum. An agenda is set and Mr. Paul Kells from Safe Communities has been confirmed as our speaker. We will review and recognize the efforts of Labour, Contractors and Industry during the past year. We will review Behaviour Based Safety, Near-miss Reporting, T.A.S.C. and Fire Resistant clothing initiatives. We are hoping for a large turnout and wish to extend an invitation to all those who are interested in participating in this unique celebration on June 25th.

CONTRACTOR HEALTH and SAFETY PROFILE

As of June first, nineteen companies have participated and completed their Health and Safety Profile. This Safety Management Assessment tool will recognize and document safety programs.

- 1) AITEC Inc.
- 2) B&D Insulation
- 3) C&C Construction Group
- 4) Chalmers Construction
- 5) CEDA Reactors Ltd.
- 6) CH Heist
- 7) Christopher Electric
- 8) Cosar Contractors
- 9) DMW Electrical
- 10) Dixin Construction
- 11) Eveready
- 12) HD Services
- 13) Norm Brandon Ltd.
- 14) Kel-Gor Ltd.
- 15) LamSar
- 16) Safety Kleen Sarnia
- 17) Sarnia Wolverine
- 18) Steeplejack Services
- 19) TJ Industrial & Electrical

CRASH DIET

Coffee and donuts are among the ten deadliest foods to eat while driving according to a Michigan based insurance company. When hot coffee gets bumped and spilled in the car, drivers get distracted and angry. Coffee was rated as most dangerous because it is painfully hot and people seem desperate to get it off their clothing.

TOP TEN FOODS THAT KILL

- 1) Coffee
- 2) Hot soup
- 3) Tacos
- 4) Chili
- 5) Juicy hamburgers
- 6) BBQ foods
- 7) Fried chicken
- 8) Jelly/cream filled donuts
- 9) Soft drinks
- 10) Chocolate

It would seem the hotter, or messier the food, the more risk you take when eating and driving.

SLOGAN CONTEST

We would like to take this opportunity to thank all those who came by to visit our booth at the N.A.O.S.H. Week display booth at the Lambton Mall on Saturday May 11th. We introduced a contest to pick a Safety oriented slogan. The submitted entries are listed on our website. Please visit us at www.sarniasafety.com to see the entries and perhaps add your own to our list. We will have a vote to pick a winner and some prizes to be awarded as well. Our thanks go to One Stop Automotive, Canada Post, Mackenzie Trophy Shoppe and the I.E.C who have so kindly donated the prizes.

FORKLIFT TRAINING and FALL ARREST

Visit our website to see class schedules. You may register on-line 24 hours a day. We will confirm your registration by fax or e-mail as soon as we receive your training request. You may also call Jean at 337-5935 during business hours.

New classes in all subject areas are being updated daily. Visit us at: www.sarniasafety.com

A BIG thank-you to Basell

for their generous gift of three computers. We have gradually upgraded most of the training rooms to deliver power point presentations using LCD projectors. This has made a big improvement in our training facility. If your company is switching to the latest in computer equipment and wants to find an appreciative home for your "outdated" equipment, we would be glad to receive it. Contact Jean at 337-5935

MINISTRY of LABOUR Information Bulletin on Protective Headwear

Currently the old B class and the new E class hard hats are considered in compliance with requirements of the existing Regulation. The new proposed amendment to the Regulation includes the new improved CSA and ANSI standards. The old hard hats will be phased out after the proposed amendment to the regulation becomes law and effective. This proposal will be reviewed and amended soon.

Interested parties should contact Evelyn Stefov, Provincial Specialist with the Ministry of Labour, with your comments and concerns.

APPOLLO ROOT CAUSE ANALYSIS TRAINING

A two-day training class for facilitators has been scheduled for September 17th and 18th. Call Bill at 383-7025 for details.

T.A.S.C. Results for May

Below shows the latest chart for hazards identified using the Task Analysis Safety Card. Over eighty percent showed a risk for slips, trips and falls! Watch out for housekeeping!
