Matt Guerette	Nel-Tekk	NO			

Acceptance of Previous Meeting Minutes

Did not review any minutes

Meeting Minutes

- Discussed how the Asbestos program would be included in the new BSO – Paul Spearman led the discussion
- The group went through the agenda for proposed Asbestos Awareness training program and Instructional design
- Made some changes explaining how Asbestos is identified on site, labels, banding, etc. Also on the different ways of informing workers about Asbestos on the work site.
- Looked at some examples of myths and truths about Asbestos that will be in the program.
- Discussed a Workplace BC video on inhalation of Asbestos compared to just showing a diagram of the organs.
- The video will be set up with myths and truths and presented during the pilot program. Feeling is if it is presented with the correct information it will be helpful.
- The time for the program will be 45 minutes, including quiz.
- Time may be a problem, as the instructor may get a lot of discussion
- The program also has RCF following the Asbestos program – discussed on should it be with Asbestos or somewhere else in the program
- Reviewed another video about a young worker explaining he was not told of the dangers of Asbestos, and he now has Mesothemiloma – may also add this 20 sec. into the program

Next Meeting

The next meeting will be the week of Nov/30th. To look at the pilot program – a run through of the program for the SME group.
